

N2TEC TECHNOLOGY ACCELERATOR 2010

www.n2tec.org

GET YOUR TECHNOLOGY BUSINESS STARTED WITH THE HELP OF EXPERTS AND GREAT RESOURCES

- Seed fund investment up to \$40,000
- Participate in the one-week N2TEC Accelerator Training Program in Sioux Falls, SD
- Investor access
- Business & industry mentors

WHY SHOULD YOU APPLY?

One of the biggest reasons new ventures never get off the ground is that their founders have a great business idea but they don't have the connections or resources to make it happen.

The **N2TEC Technology Accelerator** is a proven program that has helped to launch technology ventures in the Northern Plains. In partnership with the **South Dakota Enterprise Institute** and the **SD Small Business Development Centers**, you can realize your dream.

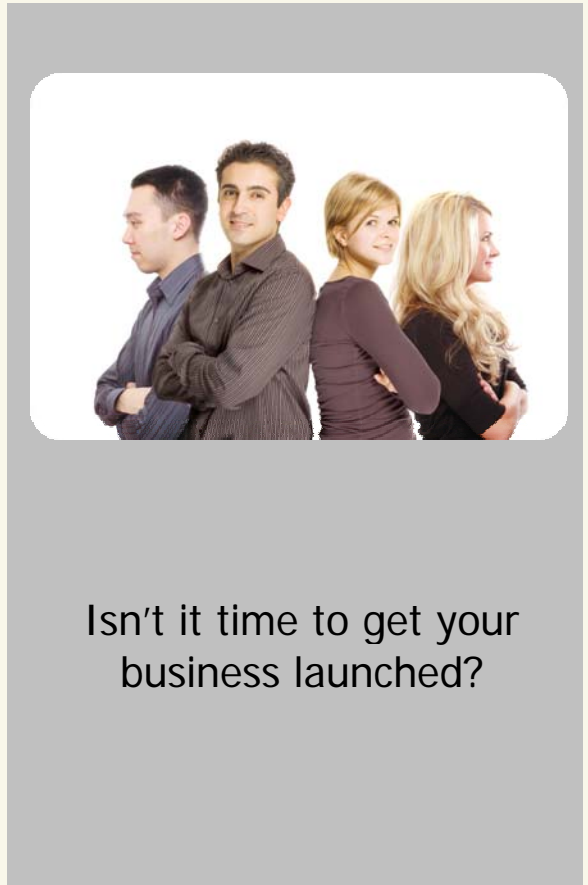

HOW DOES THE ACCELERATOR WORK?

Candidates must be entrepreneurs or early stage start-ups with a technology-based business. You can apply in one of two categories:

Launch Candidates: You have a business concept but you need the summer to refine it and prepare the business plan.

Start-up Candidates: You have a plan and are seeking seed investment to launch or grow the business.

All selected candidates will receive a \$2,000 grant and a seat in the week-long accelerator program June 2010. Start-up candidates will pitch for up to \$40,000 in seed money to launch their ventures.

Isn't it time to get your
business launched?
